# Beasts Love Earth

*Bringing Brands To Life.*

Designer of this series:

**David Leung**

David Leung is a digital artist who create surrealistic Beasts of food images he took over the years on the metaverse. Already a veteran in the digital art scene, he has done exhibitions around Hong Kong and the movement deeply inspired us to work together.

## About this collection:

David Leung is a talented artist who has a unique perspective on food photography. He sees his food images with a pareidolia mind, allowing him to reimagine them into surreal faces of never-before-seen creatures. His art journey began in digital art (NFT) and has now expanded to prints, but he is excited to explore a new format that aligns with his creative process - ceramic plates.

We share David's passion for food and creativity. As food lovers ourselves, we understand the importance of giving back to the world and making a positive impact. That's why we have joined forces with David and his Beasts From Feasts project to produce a limited edition of 500 sets of plates. Not only will these plates be a beautiful addition to any dining table, but the profits from their sale will also go towards planting 500 trees on Earth.

We are proud to be a part of this collaboration and to support such a meaningful cause. By purchasing one of these limited edition plates, you are not only adding a unique piece of art to your collection, but you are also contributing to a greener and more sustainable planet. Thank you for joining us in this journey and helping us make a positive impact on the world.
