*Transforming Your Senses*

Designer of this series:  
**Simon Stevens**

Simon Stevens is an award winning product designer and a driving force in ceramic design. Simon has worked with some of World's most prestigious ceramic manufacturers and has taught and lectured on the subject throughout the UK. He has headed up Design Teams for lifestyle brands and now continues his design career in the established Simon Stevens Design Studio based in London. Simon's dynamic creativity resulted in his most successful designs being in the permanent collections of the Victoria & Albert Museum and the Frankfurt Museum of Applied Art.

## About this collection:

At Loveramics, we believe that ceramics can go beyond just being beautiful and functional. That's why we've created our innovative colour changing cupping bowls. These bowls are not only visually stunning, but they also have a practical purpose - they change colour at 65 degrees, the perfect temperature for cupping.

We understand the struggles of cupping sessions, with multiple cups and helpers pouring boiling water at the same time. It can be chaotic and confusing, leading to burnt or ice cold coffee. But with our cupping bowls, you can easily see when they change colour and know the sequence without relying on multiple timers. This elegant and efficient solution ensures that you never miss the chance to cup at the right time.

So why settle for traditional cupping methods when you can elevate your experience with our colour changing cupping bowls? Not only do they make cupping more efficient, but they also add a touch of elegance to the process. Trust Loveramics to bring innovation and style to your coffee rituals.

Safety		Customisation:	Material:
Dishwasher Safe	●	Decal + Laser	Porcelain (Handwash recommended)
Microwave Safe	●		
Freezer Safe	●		
Oven Safe	●		
Stackable	●		

# Special Features:
