Urban Glass *Twisted Glass*

Reframing Perception With Style.

Designer of this series:
Simon Stevens

Simon Stevens is an award winning product designer and a driving force in ceramic design. Simon has worked with some of World's most prestigious ceramic manufacturers and has taught and lectured on the subject throughout the UK. He has headed up Design Teams for lifestyle brands and now continues his design career in the established Simon Stevens Design Studio based in London. Simon's dynamic creativity resulted in his most successful designs being in the permanent collections of the Victoria & Albert Museum and the Frankfurt Museum of Applied Art.

About this collection:

We are constantly striving to improve and innovate our products to meet the needs of our valued customers. That's why we took all the valuable feedback we received from our professional coffee cups range and incorporated it into our new Twisted Glass collection. We listened to your requests and made sure to include all the key requirements you asked for.

Our Twisted Glass cups have a thickness of 5mm, which not only makes them durable but also helps to retain heat for longer periods of time. The unique twisted exterior of the cups refracts light in a captivating way, while the curved interior mimics the same feature as our cups. This continuous curve allows for the perfect development of crema and provides an amazing mouthfeel with every sip.

We understand the importance of space-saving solutions for our clients, which is why all our Twisted Glass cups are designed to match perfectly with our existing Egg and Tulip Saucers. This means you can easily mix and match without having to extend your range for different recipes. At Loveramics, we are committed to providing high-quality and practical products that enhance your coffee experience. Try our Twisted Glass collection today and taste the difference for yourself.

Safety		Customisation:	Material:
Dishwasher Safe	●	Decal + Laser	Glass
Microwave Safe	●
